

SHEEMA SHAIK

Aspiring Data Science & Analytics Professional | Frontend Developer | Computer Science Engineering Student
shaiksheema0904@gmail.com | 9676809229 | linkedin.com/in/shaik-sheema-384a09349/ | github.com/Sheema498

CAREER OBJECTIVE

Motivated Computer Science Engineering student with a strong interest in Data Science and Analytics. Basic exposure to Python, data preprocessing, feature engineering, machine learning concepts, and data analysis through internships and academic projects. Currently building foundational knowledge and seeking practical industry experience to learn from professionals and contribute to data-driven solutions.

EDUCATION

Degree / Institution	Year	Result
B.Tech, Computer Science Engineering — Narasaraopeta Engineering College	2027	CGPA 8.3/10
Intermediate — Chaitanya Junior College, Chilakaluripet	2023	93%
Secondary School — Faith High School, Chilakaluripet	2021	91%

INTERNSHIP EXPERIENCE

Artificial Intelligence Intern — iStudio | Dec 2025 – Mar 2026

- Gained exposure to AI and ML concepts; worked with basic data preprocessing and feature engineering.
- Gained exposure to model training, testing, performance evaluation, and Python-based ML activities.

Software Developer Intern — Infosys Springboard | Feb 2026 – Apr 2026

- Contributed to a High-Throughput Log Analytics & Real-Time Monitoring Engine.
- Processed and analyzed 10,000+ log records; worked on issue/trend identification, monitoring, alerts, dashboards and reports.

Full Stack – MERN — Datavalley | May 2026 – Jun 2026

- Gained practical exposure to MongoDB, Express.js, React.js and Node.js; practiced REST APIs, Git/GitHub and database integration.

TECHNICAL SKILLS

Programming: Python – Fundamentals; Java – Basics

Data Science & Analytics: Data Preprocessing – Basic; Feature Engineering – Basic; Machine Learning Fundamentals; Data Analysis – Beginner

Databases: MySQL; MongoDB

Web Technologies: HTML; CSS; JavaScript; React.js; Node.js; Express.js

Tools: Git; GitHub

PROJECTS

High-Throughput Log Analytics & Real-Time Monitoring Engine

- Processed and analyzed log data for system monitoring and performance analysis.
- Implemented monitoring/alerting for system issues and created dashboards/reports for metrics and trends.

Technologies: Log Analytics; Data Processing; Monitoring; Data Visualization

ArcadeVerse — Retro Gaming Hub

- Developed an interactive web-based gaming platform with multiple browser games, responsive interfaces, game statistics, high scores and achievements.

Technologies: HTML; CSS; JavaScript; Vite; Web Audio; Local Storage

Zavora — Food Delivery Platform

- Developed a full-stack food delivery platform supporting customer ordering, restaurant operations, delivery workflow and administrative dashboards.

Technologies: React; TypeScript; Tailwind CSS; Express.js; Prisma; SQLite; Socket.IO

Hospital Care Awareness & Support Program

- Developed a full-stack healthcare and community support platform with authentication, volunteer management, healthcare services and feedback.

Technologies: React.js; Node.js; Express.js; MySQL; REST APIs

Emotion Recognition System

- Developed an academic ML project for emotion recognition using PCA for feature reduction and ANN for emotion classification.

Technologies: Python; Machine Learning; PCA; ANN

CERTIFICATIONS & ACTIVITIES

Certifications: Introduction to Artificial Intelligence – Infosys Springboard; Git Training – Simplilearn | SkillUP; Introduction to IoT – NPTEL.

Activities: Participated in ByteXL Hackathon – HacXlerate; completed CSP Project on Hospital Care Awareness & Support Program.

Languages: English | Telugu | Hindi | Urdu
